Our hygiene & safety concept

- Our **daily hygiene concept** includes all **WHO** guidelines. We use detergents, which are not only antibacterial but also against viruses and fungi. Every part of the room is cleaned with **special cleaning rags which are changed every time**.
- In each department of the hotel **cleaning will be done several times a day** according to the frequency of people.
- You will find **disinfectant dispensers** throughout the house. Disinfection of the hands is thus possible at any time and anywhere.
- All our **staff** wear surgical masks.
- The **minimum distance** of 1 m must be maintained in all areas of the hotel.
- The Hotel Schwarzer Adler is **only open to house guests** (no external guests in the bar and spa area).
